I'm Erick J. Cruz Sánchez, a Frontend Developer passionate about building modern, scalable, and high-performance digital experiences. I was born in the Dominican Republic and began my journey in programming at the age of 19. Throughout my career, I've collaborated on projects of various scales — from startups to established platforms — delivering solutions that blend performance, design, and usability. One of my most notable achievements is GamerClubVIP, where I lead the frontend development and helped the platform reach over 3,000 visitors across its content and articles. I enjoy taking on new challenges, learning emerging technologies, and sharing knowledge with my team and the community. My goal is to keep growing as a professional and contribute to projects that create a real impact on people and businesses.

PROFESSIONAL EXPERIENCE

IT Business Dominicana

Full-stack Developer

Santo Domingo, Rep. Dom.

Enero 2025 - Actual (Contract)

- Frontend Developer specialized in building fast and scalable web experiences using Next.js, TypeScript, Tailwind CSS and More.
- I currently work on a real estate platform implementing advanced filtering, interactive maps with Google Maps API, and secure authentication, while also contributing to the development of corporate websites for various business areas.
- I focus on performance, responsive design, and user experience, using tools like Zustand, and animations with Framer Motion.
